

PROFESSIONAL SYNOPSIS

*Working (Freelancing) as a **Business Intelligence Analyst** (Predictive-Analytics, Dashboarding, Reporting, Data Testing, and Automation) in Reporting and Analytics Solutions using technologies like Tableau, MS-Excel, MS-SQL Server/SSIS,R, SAS, Power BI, Alteryx, AWS, Visual Studio-2013 and MicroStrategy/Cornerstone.*

PROFESSIONAL SUMMARY

- Having nearly 1.4 years of experience in Visual Analytics which includes Tableau Development and Server Implementation, Report building, Big data Consumption, AWS Development, Web application, and web-based development through SaaS based cloud platform.
 - Experienced in Tableau, Power-BI as frontend tool for the visual analytics as per the business requirement. Well Versed with Tableau based Securities both from Data and User side.
 - Working as a Tableau Server Admin for the current project with all the accessibility for automating workbooks using REST API, JavaScript API's and Tabcmd/TSM commands/scripts. Used PostGre-SQL for auditing Tableau based reports for building business driven decisions.
 - Power-BI developer for 2 years and worked in DAX functions and various azure and Office365 platforms.
 - Database and Server Migration from ON PREM environment to AWS environment using advanced tools like Infor Data lake, MuleSoft, Amazon Glue, Postman and Tableau.
 - Worked predominantly on AWS Framework and Architecture Side comprising of SAP data dumped to AWS Data lake then to Oracle client repository to MuleSoft as API transformation capabilities.
 - Worked on AWS Mattilion to derive the extracted API and consume the attributes along with transformation and pipelining of ETL fields to AWS Redshift through Lambda functions and batch codes/scripts.
 - Experienced in HR-Analytics projects including the subjects Workforce Analytics, Retirement Risk Analysis, Turnover Analytics and Labor Analytics.
 - Experienced in Talent-Analytics with Risk Analytics platform projects including the subjects like Talent acquisition, Movement, Org Planning, Workforce and HR Capabilities.
 - Having experience in large dataset handlers like Apache Hive, Big Data and Sqoop development.
 - Experienced in Power BI Development (Data acquisition, data transformations, data loading, data management and report development).
 - Good workaround in Amazon Glue as ETL tool and its developing concepts.
 - Having Good working experience in writing complex SQL Queries, Production development environment & Server Migration for both frontend and backend. Played individual contributor role and Team Mentor role.
 - Good hands on with Text Analytics for Sentiment Analysis under Machine Learning platform. Developing Word Clouds using ngrams in "R" and web scrapping twitter and ON Prem server data for Sentiment Analysis.
 - Having worked in Data Modeling tools like R, SAS, Python and RapidMiner.
 - Interacted with Client, Business Analyst and Stakeholders daily as per Agile methodology and Scrum platform through Visual Studio Team Services.
-

PROJECT DESCRIPTION

HR Reporting and Analytics and Cloud Solutions:

- a. Predictive Analytics using SAS/R (Linear Regression and Text Analytics) in MCS-Analytics Project within the Marketing COE Freelance (EIMF).
- b. Understanding the data and KPI's or views which will be shown on final Tableau, Qlik and power BI dashboard.
- c. Creating a wireframe/ paper design / design document to finalize the number of dashboards or graphs, graph type & color code/ Calculations for KPI's.
- d. Connecting Tableau to database and creating designed dashboards along with final work on Formatting, alignments and look n feel of dashboard.
- e. Data quality testing by comparing output of dashboard with database. Functional testing by checking filters, navigation and formatting etc.
- f. Publishing dashboards on server and giving access to users with data restrictions using Default User Filters. Getting reviews from end users and modifying the dashboards accordingly.
- g. Manage the application's users, groups, and integration with Active Directory.
- h. Tableau Metadata tables and PostgreSQL with AWS Integration with S3 and CloudFront.
- i. Designing and Deploying of SSIS Packages and Integration of Alteryx packages with SSIS as per Business requirement.
- j. Design, implementation and maintenance of data warehouses SQL Server Management.
- k. Data Analysis/Modeling using R and Python.
- l. Dashboard Creation in Power BI and Tableau for stakeholders/clients.

KNOW-HOW AND EXPERTISE IN IT-DOMAIN

- Quite good in Algorithm and Looping concept for software development.
- Operational Know-How of Usage of Various Techniques like Joins, Grouping, Ordering and aggregating data. In Order to Increase Query Performances
- Usage of MS-Access and MS-SQL Application Packages for Data Maintenance at Tabular Level Keeping Non-Redundancy as Prime Objective.
- Complete Understanding of MS-EXCEL and its Components and Functions like Pivot, Lookups etc.
- Quite Speedy at Advanced-Excel In Order to Match Faster and Accurate Reporting Requirements in Everyday Scenario.
- Tableau Dashboard modelling as per the Stakeholders requirements.

TRAININGS

- Data Science A-Z: Real Life Data Science with Machine Learning. (Udemy)
- Data Science course with Business Intelligence (360DigitMG)
- Tableau Training in startup Fast-Forward Program (3 months).

AWARDS AND ACHIEVMENTS

National Service Scheme 2014- 2018

1. Actively Participated in all NSS Events (Blood donation camp, Awareness sessions, Rallies, Camps, Competitions etc.)
2. Nominated to attend University Level Camp at CUSAT, Bhopal.

Competitions:

1. A member of the winning team of 'TECHIE GANG', a treasure hunt conducted by INDUSTRYUS 2016 (an IEEE event).
2. Attained 2nd rank in MP for National Science Olympiad, 2013.

Academics:

1. Received Scholarship from Central Sector Scholarship Scheme, Central Govt. in CBSE 12th Board and B.Tech.
2. Awarded Scholarship from Central Govt. in CBSE 10th Board.

Arts and Sports:

1. Represented my College at CUSAT along with my team in sports events (Basketball and Throw Ball)
2. Winner and Runner up in various School and College level competitions like Skits, Essay writing, Group dance, Shot put throw, Disc throw etc.

EDUCATIONAL QUALIFICATION

Degree/Certificate	Institute/School	Year	CGPA/Percentage
PGDSCM, MBA	NMIMS	2019-2021	70%
B. Tech in Electronics and Electrical Engineering (EEE)	RGTU, Bhopal	2014-2018	80%
Class XII-CBSE Board	Kendriya Vidyalaya No.1, Bhopal	2013-2014	95%
Class X-CBSE Board	Kendriya Vidyalaya No.1, Bhopal	2012-2013	98%

POSITIONS OF RESPONSIBILITY

1. Women in Engineering (IEEE), Activity Coordinator 2016 in RGTU Bhopal.
2. Women in Engineering (IEEE), Secretary 2017 in RGTU Bhopal.
3. Career Guidance and Placement Unit, Executive Member in PR department in RGTU, Bhopal (2016-2018).
4. Volunteered at IEEE Impulse (2015), MP IEEE TECHNICAL SYNOPSIS (2016), WIE WEEK CELEBRATION (2017), and Various Other College Level Events.

PERSONAL INFORMATION

- Father's Name: Chittaranjan Choudhury
 - Permanent Address: Flat-610, Bhuvan Pride Apartments, Ranasingpur, Near AIIMS, Bhubaneswar
 - Current Address: Flat-3, Building-51, 9th Cross, 1st Stage, Ashraya Layout, Mahadevpura, Bangalore
 - Date of Birth: 30-08-1996
 - Marital Status: Single
 - Passport Status: Yes
 - Languages Known: English, Hindi and 3 others regional languages.
 - LinkedIn: www.linkedin.com/in/manisha-priyadarshini-b819a2202
 - Work Location: Bangalore (Freelancing/Startup)
-
