

C.SAIKIRAN

AZURE DATA ENGINEER

Location: Bangalore, India

Phone: (+91) 798 989 4825

Email: csaikiran.ade@gmail.com

PROFILE SUMMARY

As a seasoned IT professional with over 8 years of experience, including more than 4 years focused on Azure data engineering, I am a results-driven Azure Data Engineer. I have a proven track record in designing, implementing, and managing data solutions on the Azure cloud platform. My expertise includes developing robust data pipelines, optimizing data storage and retrieval, and ensuring data accuracy. I am dedicated to leveraging my technical skills to drive data-driven insights.

TECHNICAL SKILLS

Cloud Platforms: Microsoft Azure

Data Integration: Azure Data Factory, Azure Data Lake Storage

Databases: Azure SQL Database, SQL Server

Programming Languages: SQL, Python

Data Visualization: Power BI

Version Control: Git

WORK EXPERIENCE

Project 1 | Azure Data Engineer | Wipro Limited | S&P Client | 2020 – Present

Portfolio of Work:

S&P Global is a prominent provider of financial information, analytics, and ratings. In my role as an Azure Data Engineer at S&P Global, I played a pivotal role in leveraging Microsoft Azure to design, implement, and optimize data solutions. My responsibilities included collaborating with cross-functional teams to gather requirements, define data models, and implement solutions that met business needs. I implemented Azure Data Factory pipelines for ETL processes, ensuring efficient data extraction, transformation, and loading. This involved utilizing Azure services such as Azure Data Factory, Azure SQL Database, and Azure Databricks.

Performance Highlights:

This Azure Data Engineer plays a crucial role in the end-to-end data processing lifecycle, from gathering client requirements to designing and implementing solutions using various Azure services and tools.

Daily Activities:

anticipate in daily standup calls with the team.

Connect with clients weekly, gathering and discussing project requirements.

Data Processing and Transformation:

Write T-SQL (DDL/DML) queries, stored procedures, views, and functions.

Validate destination data using business logic against source data.

Extract data from CSV, Excel, and SQL Server sources using ADF pipelines.

Implement Incremental, daily, and full loads in Azure Data Warehouse using SQL and PySpark.

Transform data frames using PySpark and Spark SQL.

Create views for tables using Azure Databricks.

Azure Services Expertise:

Utilize Azure ADF & ADB for data migration projects.

Develop pipelines in Azure Data Lake, Azure Data Factory, SQL Data Warehouse, Azure Blob, and Azure Storage Explorer.

Create and schedule jobs and notebooks in Azure Databricks.

ETL Processing:

Design and implement control flow activities in ADF, including Copy activity, Pipeline, Get Metadata, If Condition, Lookup, Filter, and For Each pipeline activities.

Develop Azure Data Factory pipelines for moving data from staging to Data Warehouse using incremental data load processes.

Power BI and Data Visualization:

Use Power Query to amend data as per requirements.

Design, develop, and deliver business intelligence solutions using Power BI.

Azure Cloud Services Configuration:

Configure Azure Cloud services, including Azure Blob, Azure SQL, and Azure Data Lake.

Data Integration:

Develop pipelines, linked services, and datasets in Azure Data Factory and Azure Databricks.

Project 2 | SharePoint Administrator | HP Enterprise | Multiple clients included Abbott, AbbVie, Duracell, Delmont, Brook Field, HPE, Origin, Lattice, Nexteer, Halyard etc. | 2015 – 2019

I've been a Senior SharePoint Administrator, managing both Online and On-premises versions. Experienced in 24*7 client support, I've worked with Office 365, SharePoint 2010/2013, SharePoint Online, Teams, Power Platform, Box, and OneDrive. Expertise includes configuring Web Applications, Team Sites, and handling migrations. Proficient in user permissions, content updates, and issue resolution. Skilled in Active Directory, Internet Information Server, and backup/restoration using tools like DPM Backup and PowerShell. Additionally, I have expertise in installing and deploying Service Packs and Cumulative Updates for SharePoint 2010/2013 Servers.

EDUCATION

I graduated with a Master's in Computer Applications from VVIT COLLEGE, JNTUK

CERTIFICATES

Microsoft Certified: Azure Data Engineer Associate (DP-203)

Microsoft Certified: Azure Administrator (AZ-104)

70-346 - Managing Office 365 Identities and Requirements

70-347 - Enabling Office 365 Services

INTERESTS

Continuous Learning

Data Science and Analytics Enthusiast

Community Involvement

Travel and Cultural Exploration

Sports or Outdoor Activities

PERSONAL INFORMATION

Name: C Sai Kiran

Nationality: Indian

Marital Status: Married

DOB: Nov, 1989

Passport Status: Active

(Sai Kiran)
